About Crain's Fast 50:

Since 2007, Crain's Fast 50 feature has spotlighted local companies that have achieved impressive revenue gains over a five-year period in business, real estate, technology, health care, marketing, retail, logistics and more. As such, the project annually offers a reliable snapshot of the region's growth sectors. To be considered for participation, companies had to have generated a minimum of \$15 million in revenue in 2017, be headquartered in the Chicago area (the counties of Cook, DuPage, Kane, Lake, McHenry and Will as well as Lake in Indiana) and have been in business a minimum of five years. Other criteria also applied. Determining

the Fast 50 is a multistep process. The first was an extensive call for applications. To verify the growth rates on the applications, Crain's requested financials for 2012 and 2017. Companies were ranked by 5-year change in revenue. Plante Moran assisted with verifying the financials, but Crain's is ultimately responsible for the ranking.
